

# DL-2 TC SERIES

PATENTED RYgB – LIGHT EMISSION TECHNOLOGY

## enLux LED DL-2 TC Down Light Tapered Cone Trim Series

is a **SMART CHOICE** for institutional and commercial indoor general illumination.

DL-2 down light is 2 times more efficient than PL and CFL. They are practical, versatile, and affordable.

The patented **DL-2 TC Series** down light is available in two mount versions - drop ceiling mount and sheetrock ceiling mount. This luminaire is specifically designed for illuminating offices, hospitals, retail stores, educational institutions, or commercial buildings.

The **DL-2 LED** module uses patented **RYgB** light emission technology; it delivers vivid color rendering for the objects illuminated.

# Line Voltage DL-2 TC SERIES
